AI Overview

+15

The global landscape of Asian pop music in early 2026 is defined by a massive surge in international activity, with 2026 considered potentially the biggest year in K-pop history. K-pop, J-pop, and C-pop are increasingly blending with Western pop production to create a globalized, "transnational" sound, supported by major international streaming and touring projects. Do you guys think “Global” kpop groups will become more common?

Every successful K-Pop group is global nowadays. The biggest part of their streams, views, album sells and tours comes from abroad.
